RE: Withdrawal of Request
for State Director Review

Dear Tom:

On April 6, 1990 CENEX requested a State Director Review of a decision from the Dickinson District Office relative to surface casing requirements as set forth in a letter from that office dated March 15, 1990.

We have now been informed that the Dickinson District Office has accepted our surface casing program as set forth in our APD for the CENEX 7-28H. Since no controversy remains regarding the surface casing requirement, CENEX hereby withdraws our request for a State Director Review.

We appreciate and are grateful for the timely and efficient manner in which your office handled our request. Now all we need is a solution to our bighorn sheep problem.

Sincerely,

A handwritten signature in cursive script that reads "Corinne Courtney".
